

Package ‘biggr2’

October 29, 2020

Type Package
Title A Package for R and AWS
Version 0.1.0
Author Freddy Drennan
Maintainer Freddy Drennan <drennanfreddy@gmail.com>
Description A Package for Deploying R Applications on AWS
Imports reticulate,
 purrr,
 magrittr,
 tibble
Suggests argparse,
 styler,
 conflicted
License MIT + file LICENSE
Encoding UTF-8
LazyData true
RoxygenNote 7.1.1
Roxygen list(markdown = TRUE)

R topics documented:

configure_aws	2
s3_create_bucket	2
s3_delete_bucket	3
s3_delete_file	3
s3_download_file	4
s3_list_buckets	4
s3_list_objects	4
s3_put_object_acl	5
s3_upload_file	5
Index	6

configure_aws	<i>configure_aws</i>
---------------	----------------------

Description

configure_aws

Usage

```
configure_aws(  
  aws_access_key_id = NA,  
  aws_secret_access_key = NA,  
  default.region = NA  
)
```

Arguments

- aws_access_key_id IAM access key ID
- aws_secret_access_key IAM secret access key
- default.region AWS preferred region

s3_create_bucket	<i>s3_create_bucket</i>
------------------	-------------------------

Description

s3_create_bucket

Usage

```
s3_create_bucket(bucket_name = NA, location = "us-east-2")
```

Arguments

- bucket.name A name for the bucket
- location An AWS region. Defaults to us-east-2

s3_delete_bucket	<i>s3_create_bucket</i>
------------------	-------------------------

Description

s3_create_bucket

Usage

```
s3_delete_bucket(bucket_name = NA)
```

Arguments

bucket_name	A name for the bucket
-------------	-----------------------

s3_delete_file	<i>s3_delete_file</i>
----------------	-----------------------

Description

s3_delete_file

s3_delete_file

Usage

```
s3_delete_file(bucket, file)
```

```
s3_delete_file(bucket, file)
```

Arguments

bucket	Bucket to upload to
--------	---------------------

file	File to delete
------	----------------

s3_download_file	<i>s3_download_file</i>
------------------	-------------------------

Description

s3_download_file

Usage

s3_download_file(bucket, from, to)

Arguments

bucket	Bucket to upload to
from	S3 object name.
to	File path

s3_list_buckets	<i>s3_list_buckets</i>
-----------------	------------------------

Description

s3_list_buckets

Usage

s3_list_buckets()

s3_list_objects	<i>s3_list_objects</i>
-----------------	------------------------

Description

s3_list_objects

Usage

s3_list_objects(bucket_name = NA)

Arguments

bucket_name	bucket_name
-------------	-------------

s3_put_object_acl	<i>s3_put_object_acl</i>
-------------------	--------------------------

Description

s3_put_object_acl

Usage

```
s3_put_object_acl(bucket = NA, file = NA, ACL = "public-read")
```

Arguments

bucket	bucket_name
file	file name
ACL	permissions type

s3_upload_file	<i>upload_file</i>
----------------	--------------------

Description

upload_file

Usage

```
s3_upload_file(bucket, from, to, make_public = FALSE, region = "us-east-2")
```

Arguments

bucket	Bucket to upload to
from	File to upload
to	S3 object name.
make_public	boolean
region	To create url for file
